

HASIRU AMARASOORIYA

Full stack Developer | Mobile app Developer

PROFILE

I am a motivated and detail-oriented software engineering student passionate about developing innovative solutions. My strong foundation in programming, coupled with hands-on project experience, has equipped me with the skills to tackle real-world challenges. I am eager to apply my knowledge and grow as part of a dynamic team, where I can contribute to meaningful projects and further develop my technical abilities.

WORK EXPERIENCE

1-Software Engineer – ColtexBiz 08/2024-1/2025
(6 Months)

During my internship at this company, I developed my knowledge of technical skills such as ReactJS, NextJS, Tailwind CSS, HTML, CSS, JavaScript, MongoDB, and Node JS by participating in their projects.

2-Software Engineer Intern – Donext 01/2024-12/2024
(1 Year)

During my internship at this company, I developed my knowledge of technical skills such as ReactJS, Tailwind CSS, HTML, CSS, JavaScript, MongoDB, and Node JS by participating in their projects.

3-Software Engineer Intern - Fintechology Asia Pacific (Pvt) Limited 03/2023-09/2023 (6 Months)

During my internship at this company, I developed my knowledge of technical skills such as ReactJS, .Net Core Web API and C# by participating in their projects.

TECHNICAL SKILLS

- **Programming Languages:** Java, PHP, C#, JavaScript
- **FRONTEND:** React, HTML, CSS, JS, Tailwind, Bootstrap, ReactJS, NextJS
- **BACKEND:** Node JS, Spring, PHP, APIs, ASP.Net, .Net Core
- **Database:** MongoDB, MySQL

EDUCATION

BSc (Hons) in Information Technology (IT)

Sri Lanka Institute of Information Technology (SLIIT) |
Malabe 2020-2024

G.C.E Advance Level

St. Thomas' Boys' College| Matale 2019
Commerce Stream

G.C.E Ordinary Level

St. Thomas' Boys' College| Matale 2015

PROJECTS

1- luxury hotel website – [project link](#)

Developed a luxury hotel website featuring a dynamic restaurant menu with 3D food visualizations, an interactive ordering system, and sections for a lobby bar, event management, banquet halls, and accommodations. The platform offers a seamless, responsive user experience with intuitive navigation, enhancing customer engagement and streamlining service bookings while showcasing the hotel's diverse offerings.

Technical skills - ReactJS, Tailwind CSS, MongoDB, Node JS

2- legend-tour website – [project link](#), [GitHub](#)

Developed a comprehensive and interactive website for the Legend-Tour Golf Sports Club, offering a seamless user experience across various sections, including the homepage, event schedule, player rankings, playing experiences, ticket purchasing, news updates, and about us. The platform focuses on delivering dynamic content with smooth navigation, ensuring users have easy access to relevant information and services. The project showcases my ability to build user-centric and high-performance web applications.

Technical skills - NextJS, TypeScript, JavaScript, CSS

3- lk-model-zone-photography – [project link](#), [GitHub](#)

Developed a dynamic and visually appealing photography website, featuring multiple pages including Home, Photographers, Gallery, About Us, and Contact Us. The website provides an engaging user experience through seamless navigation and an intuitive design, showcasing the photography portfolio effectively. It is structured to offer both aesthetic appeal and functionality, ensuring an interactive platform for potential clients to explore the work and get in touch with photographers.

Technical skills - HTML, CSS, JavaScript

- **Mobile Application:** Flutter
- **Version Control:** Git, GitHub
- **IDEs:** VS code, IntelliJ, Android Studio, Visual Studio
- **Software:** Figma, Canva, Photoshop, Postman, Draw IO
- **Soft skills:** Time Management, Problem solving, Faster learner, Teamwork, Creativity, Flexibility

4- AST Bakery Website- [project link](#)

Developed and maintained a dynamic, full-stack web application for AST Bakery, providing an intuitive and feature-rich dashboard for bakery management. The platform includes pages for managing users, drivers, shops, items, orders, deliveries, and payments, ensuring smooth operations across all aspects of the bakery's logistics and sales. The dashboard offers real-time analytics and insights into performance, sales, and delivery metrics, empowering business owners with data-driven decision-making capabilities. I contributed to both frontend and backend development, working on user interface design, dashboard functionality, and integration of data flow between various services.

Technical skills - ReactJS, Tailwind CSS, MongoDB, Node JS

5- John Keells Management System - [GitHub](#)

Developed the "Employee Details Management System" is a management system that helps to manage the employees and their related departments.

Technical skills - C#, .Net Framework, HTML, CSS, JavaScript

6- E-Clothing Website - [project link](#), [GitHub](#)

Developed a fully functional e-commerce website designed for online clothing and electronics sales. The platform offers a seamless shopping experience with multiple categories including Men's Wear, Kids Wear, Top Rated items, and Trending Products. Key features include an intuitive homepage, product browsing, real-time cart management, and secure payment processing. The website supports an easy navigation system, allowing customers to filter products based on their preferences. Optimized for both desktop and mobile views, this project showcases my ability to build responsive, user-friendly applications that cater to a wide range of customer needs.

Technical skills - ReactJS, Tailwind CSS, MongoDB, Node JS
